

BREATHE - IN THE HEIGHTS (AABA)      CHARGE - TOUR

**PIRAGUA/PARTICLE**

Sigue andando el camino	— — — — — — — —
Por toda su vida.	— — — — — —
Respira.	— — —

**NINA/LEPTON**

Breathe.	Charge.
----------	---------

**RESIDENTS/PARTICLES**

Y si pierdes mis huellas	— — — — — — —
Que Dios te bendiga.	— — — — — — —
Respira.	— — —

**NINA/LEPTON**

This is my street	These are my fields.
I smile at the faces	I electrify the place.
I've known all my life,	Particles listen.
They regard me with pride.	No matters hesitate.
And everyone's sweet,	And the whole world yields.
They say, "You're going places!"	They let me into the space.
So how can I say	So what to do then.
That while I was away,	As I'm disengaged.
I had so much to hide?	All I did was negate.
Hey guys, it's me!	Lepton, 'lectron!
The biggest disappointment	All I add is negative
You know—	Derive—

**NINA/LEPTON (cont.)**

The kid couldn't hack it,	Repulsive equations.
She's back, and	Part of me
She's walking real slow.	Adds just this factor.
Welcome home,	Negative.
Just breathe,	My charge.

**RESIDENTs/PARTICLEs**

Sigue andando el camino	— — — — — — — —
Por toda su vida.	— — — — — —
Respira.	— — —

**NINA/LEPTON**

Just breathe—	My charge—
---------------	------------

**RESIDENTs/PARTICLEs**

Y si pierdes mis huellas	— — — — — — —
Que Dios te bendiga.	— — — — — — —
Respira.	— — —

**NINA/LEPTON**

As the radio plays	Thought indivisible.
Old forgotten boleros,	All powers interwoven.
I think of the days	Then like a genius
When the city was mine.	In a cathode ray tube.
I remember the praise,	To stay invisible.
Ay, the adoro, te quiero.	Instead let feelings apprehend.
The neighborhood waved,	I let my life spark

And said, "Nina, be brave,  
And you're gonna be fine!"  
And maybe it's me,  
But it all seems like  
Lifetimes ago,  
So what do I say  
To these faces  
That I used to know?  
"Hey, I'm home?"

And bring energy but  
My natures not to soothe.  
I add negative.  
But it's hidden in  
Electricity.  
What must I take in?  
All I bring is  
Negativity.  
I am charged.

**RESIDENT/PARTICLE**

Mira, Nina,

— — — —

**NINA/LEPTON**

Hey,

Tau.

**RESIDENTs/PARTICLEs**

No me preocupo por ella.

— — — — — — — —

**NINA/LEPTON**

They're not worried about me.

— — — — — — —

**RESIDENTs/PARTICLEs**

Mira, allí esta nuestra estrella.

— — — — — — — — — —

**NINA/LEPTON**

They are all counting on me to  
succeed.

— — — — — — — — — —

## RESIDENTs/PARTICLES

Ella si da la talla,

- - - - -

## NINA/LEPTON

I am the one who made it out.

I am the one who makes it in.

The one who always

The one who always

Made the grade.

Led the charge.

But maybe I should

I should not have left

Have just stayed home,

What was golden.

When I was a child

I stayed invisible.

I stayed wide awake,

Electric fields woke.

Climbed to the highest place

Jumped to the highest points

On every fire escape—

On all energy levels—

Restless to climb.

Natural climber.

I got every scholarship,

I felt protons and neutrons.

Saved every dollar,

Gave every valence.

The first to go to college,

Give Atom the validation.

How do I tell them why

Yet I have got no strong

I'm coming back home

-er interactions.

With my eyes on

With my charges in

The horizon,

The negatives.

Just me and the GWB,

From me to the forces of  
nature,

Asking, gee Nina,

Wonders, why Lepton,

What'll you be?

Be negative?

Straighten the spine.

Align yourself.

Smile for the neighbors.  
Everything's fine.  
Everything's cool.  
The standard reply,  
"Lots of tests,  
Lots of papers."  
Smile, wave goodbye,  
And pray to the sky,  
Oh God,  
And what will my parent say?  
Can I go in there and say,  
"I know that I'm  
Letting you down,"  
Nina,  
Just breathe

Distance from the matters.  
Particle's tau.  
Particle's mu.  
Use standard models,  
Light Boson,  
All the Quark.  
Orbit, leave the field.  
Then preon the point,  
Дерьмо (der'mo).  
What does Quark even believe?  
Can I return to her with...  
Does she deserve  
her doctorate?  
Lepton,  
Your charge.
